To whom it may concern:

I recently purchased your hand crafted "Grate wall of Fire". I was truly impressed when it was everything you said it would be and even more.

I am in the baby boomer age group and one of the Grate! Great! Features, no pun intended is there is no moving around of the logs once the fire is going. For those of us who have bad backs, it's such a pleasure now with little or no effort enjoying the warmth and esthetics of the fire place.

Thank you for having the vision to create such a problem solving Grate.

Sincerely,

A handwritten signature in black ink, appearing to read "Judith McKinnon", with a long horizontal line extending to the right.
