Minneapolis, Minnesota 55424

Specializing In Brick - Stone Repair - Tuckpointing

12-12-01

Walnut Hill Forge  
Torrington Ct.

I'm Writing to Tell You I've been in the chimney repair business for Mohler for over 30 years. During that time I have evaluated hundreds of fireplaces with back-smoke problems. This is an age old problem dating back to colonial times if not before. Ben Franklin even wrote a small book on the subject. He gave over twenty reasons why fireplaces don't draw properly. Most of them are still true today. That being said, your upright wall of fire grate solves many of these problems. It's also the safest grate I've ever worked with. After using it for a few weeks it makes me wonder how or why anyone ever built a flat grate. Your grate does all you say it does and more. Good Luck marketing your product.

Sincerely  
Robert Mohler
