December 13, 2001

Dear Mr. Richard,

I have recently just purchased my second "Wall of Fire" fireplace grate. The first one I bought was for myself and this one I just bought is a gift for my brother and his wife.

These grates are just the best! I am not a "fire girl" as my husband would say. No matter what I've done in the past to start a fire and keep it going in the fireplace never worked, not even using the logs you buy in the stores. A friend of ours recommended we go to the greenhouse and check out your grates. They are funny looking and we were skeptical but I just wanted to let you know - they really do work just like you say they do. The best part about the grate is I don't have to poke the fire every 10 minutes. The heat is intense and I can start the fire and keep it going all weekend long if I want.

My husband and I wanted to let you know that this grate is wonderful and we wish you much success with your new product! Thanks for making me a real "fire girl"....

Sincerely,

Evelyn and Biff Meyer
