Hi Jesse,

Actually I already came to your store and purchased an M-5 as suggested by your guy at the store. (Adam maybe?) . Anyways, I got it home and it fit real nice in my fireplace. I then built a fire and just cannot believe the difference !! I am the biggest believer in this product now !! Its amazing how much hotter the living room gets and how much EASIER to have a blazing fire !! I am so glad I stopped at your setup at the Harwinton Fair and talked to you guys !! I am hoping to buy one for my father-in-law for an Xmas gift soon. I will be up to your store soon, hopefully before my H. Fair 10% discount is up ! I can't wait to build my next fire !!

See ya soon !
