Dear Jesse,

I used "Wall of Fire Grate" for, hopefully,
the last time in this winter/spring season.
Ever since I used your great product this
year, its performance has been outstanding.
I feel cheated in not being able to enjoy
my fireplace earlier.

The heat radiating from our fireplace is
significantly increased since using your
grate. Simply, unbelievable!

Thanks again for marketing your great idea
and grate.

Yours truly,

John Weglinski
